

**The rules:**

When you are travelling on your journey look out of your windows and spot the items on your bingo card - when you spot an item say its name out loud to claim the item as yours, that way no one else can spot that same item at that particular time. The only way a player can then claim the same item is when another one appears on your journey.

Now you have spotted the item cross it off on your bingo card and to have multiple games maybe laminate the cards below

There are various ways to win the game such as:

The first person to get all four corners on their card - and claiming **“CORNERS”**

The first person to get a straight or diagonal line on their card - and claiming **“LINE”**

And the overall winner is first person to complete their entire card - and claim **“BINGO”**

**HAPPY SPOTTING - AND SAFE MOTORING!**
